

Sharing news (and other things) from partners

Surrey, East Sussex, West Sussex
Every two weeks | Issue 1 | 30 June 2020

We work with a diverse range of organisations across Surrey and Sussex and the wider South East, from STPs and ICSs, county councils to parish councils, other professions contracted to the NHS to pharmaceutical companies who supply the NHS and many, many more.

One thing they all have in common is that they want us to share their news with you, which makes our regular newsletters very long and sometimes unwieldy. So, in response to your feedback, I have created this new regular round-up to share links to partners regular newsletters, press releases and assets.

Do please let me know if this makes it easier for you.

Warmest wishes

Sandra Lamont
