9th August 2022

Let's maximise our income by ensuring that all services delivered are claimed. Utilise the pharmacy team to delegate claiming activities and set reminders.

Hypertensive case finding Advanced Service

This service must be manually entered and claimed on MYS monthly.

PharmOutcomes have provided a template on their system for all contractors to use, this will be added for all pharmacies who are currently live on MYS.

For new pharmacies signing up to the service on MYS there will be a short delay of accreditation on PharmOutcomes. The template is split into 3 sections: Hypertension case finding (AS), ABPM Fitting and ABPM Follow up.

Discharge Medicine Service

DMS is an essential service so pharmacies must provide this.

Once the referral has been completed in PharmOutcomes you will have to manually input this data into MYS. A training webinar can be found [here](#).

It is important when transferring data that the hospital code is entered correctly. A report can be downloaded in PharmOutcomes to support this task.

Essential Services

Discharge Medicines Service

Dispensing Appliances
Dispensing Medicines
Healthy Living Pharmacy
Public Health
Repeat Dispensing ERD
Signposting
Disposal of unwanted Medicines

National Enhanced Service

Covid 19 Vaccinations

Local Enhanced Service NHSE

Bank holiday Rota

PharmOutcomes

Locally Commissioned public health services in Surrey and Sussex are claimed via PharmOutcomes. Once the service has been delivered the data is inputted on the platform this sends the claim to the council monthly. Please confirm that you have entered all the data for every service provided to ensure all services are claimed and generated. Training documents and videos are in the help section.
