

SE Forum of LPCs Sponsorship Information

The SE Forum of LPCs is formed of a coalition of organisations committed to improving community pharmacy in Hampshire & IOW, Kent, Sussex, Surrey and Thames Valley. It's the region's largest multidisciplinary forum for pharmacy leaders from across the whole community sector, to share their expertise and hear the latest developments in community pharmacy and service delivery – this is your chance to join them. There is a range of opportunities with tailored benefits to meet the needs of organisations who want to work with community pharmacy leaders. We want to develop and enhance relationships between the Forum members and industry. We are offering exhibition and networking opportunities to enable you to showcase your products and services, engage with community pharmacy leaders, decision makers, trainers, educators and commissioners.

The Forum includes professionals and leaders from pharmacy organisations and commissioners. Representatives meet regularly to share ideas, improve, and develop the community pharmacy sector and help shape the amount and type of training available to community pharmacists and their teams. The Forum is the largest multidisciplinary forum for pharmacy leaders in the South-East and attracts over 20 senior professionals every time it meets.

Regular members include:

- Chief executive, chair and vice-chair, Community Pharmacy Hampshire & IOW
- Chief executive, chair and vice-chair, Community Pharmacy Kent
- Chair and vice-chair, Sussex Local Pharmaceutical Committee
- Chair and vice-chair, Surrey Local Pharmaceutical Committee
- Chief executive, chair and vice-chair, Community Pharmacy Thames Valley
- Chief executive of Community Pharmacy Surrey & Sussex, and team members
- Regional managers from Frimley SE Pharmacy Commissioning Hub
- Regional pharmacy leads from NHSE Workforce, Training and Education Directorate
- National and regional leads from CPE (Community Pharmacy England)
- Representative from the National Pharmacy Association
- Representative from the CPPE
